Reflexology Map

Reflexology, also known as zone therapy, is an alternative medicine involving application of pressure to the feet and hands with specific thumb, finger, and hand techniques without the use of oil or lotion. It is based on a pseudoscientific system of zones and reflex areas that purportedly reflect an image of the body on the feet and hands, with the premise that such work effects a physical ...

Ear reflexology is not as well-known as foot or hand reflexology, but it is just as effective for relieving stress and pain. Application of ear reflexology is fast and easy. It is ideal to use when other health conditions make the more traditional reflex therapies unsuitable because of cuts, scrapes or other more serious injuries.

Reflexology is a type of science based on the idea that there are “zones” or reflex areas on the hands and feet that correspond with all of the glands, organs, parts and systems found inside or on the body. According to the idea of reflexology, applying pressure to these points using specific thumb, finger and hand techniques results in a reduction of stress in the body.
