INTRODUCTION. Children with Down syndrome have multiple malformations, medical conditions, and cognitive impairment because of the presence of extra genetic material from chromosome 21. 1,2 Although the phenotype is variable, there typically are multiple features that enable the experienced clinician to suspect the diagnosis. Among the more common physical findings are hypotonia, small ...

### **IDHS: Consumer Handbook for Home-Based Services**

Positive behavior support (PBS) is a behavior management system used to understand what maintains an individual's challenging behavior. People's inappropriate behaviors are difficult to change because they are functional; they serve a purpose for them. These behaviors are supported by reinforcement in the environment. In the case of students and children, often adults in a child's environment ...
